

# Job Trend Data Tool – Medical Billing Specialist

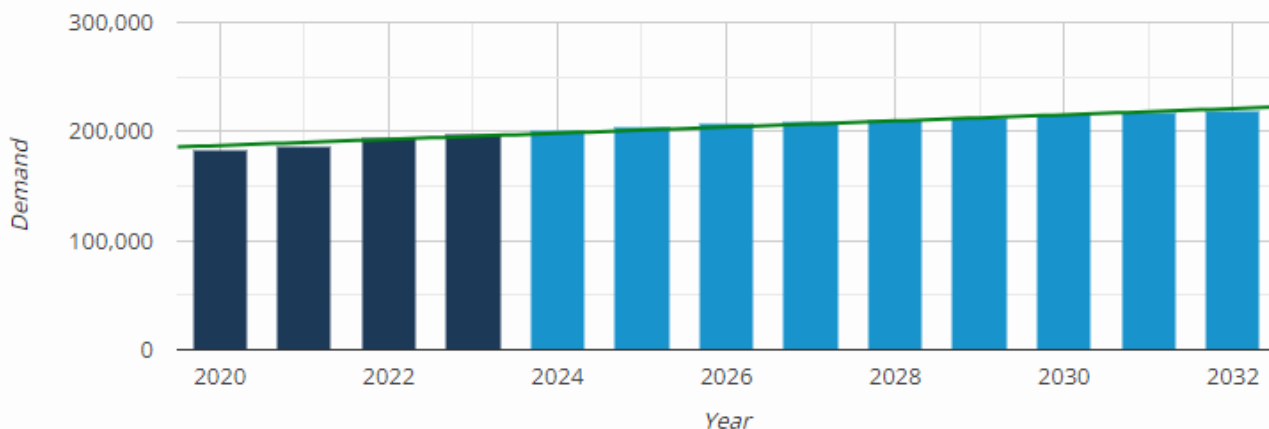

Compile, process, and maintain medical records of hospital and clinic patients in a manner consistent with medical, administrative, ethical, legal, and regulatory requirements of the healthcare system. Classify medical and healthcare concepts, including diagnosis, procedures, medical services, and equipment, into the healthcare industry's numerical coding system. Includes medical coders.

## Core tasks

- Assign the patient to diagnosis-related groups (DRGs), using appropriate computer software.
- Compile and maintain patients' medical records to document condition and treatment and to provide data for research or cost control and care improvement efforts.
- Consult classification manuals to locate information about disease processes.
- Enter data, such as demographic characteristics, history and extent of disease, diagnostic procedures, or treatment into computer.
- Identify, compile, abstract, and code patient data, using standard classification systems.
- Maintain or operate a variety of health record indexes or storage and retrieval systems to collect, classify, store, or analyze information.
- Post medical insurance billings.
- Process and prepare business or government forms.
- Process patient admission or discharge documents.
- Protect the security of medical records to ensure that confidentiality is maintained.
- Release information to persons or agencies according to regulations.
- Resolve or clarify codes or diagnoses with conflicting, missing, or unclear information by consulting with doctors or others or by participating in the coding team's regular meetings.
- Retrieve patient medical records for physicians, technicians, or other medical personnel.
- Review records for completeness, accuracy, and compliance with regulations.
- Scan patients' health records into electronic formats.
- Schedule medical appointments for patients.
- Transcribe medical reports.

The number of jobs in the career for the past two years, the current year, and projections for the next 10 years. Job counts include both employed and self-employed persons, and do not distinguish between full- and part-time jobs. Sources include Emsi industry data, staffing patterns, and OES data.

Over the next 10 years, employment demand is expected to change by **+10.04%** for Medical Records Specialists.

These companies are currently hiring for Medical Records Specialists.
